5. I believe U.S. Letters Patent 6,366,323 to be wholly or partially inoperative or invalid by reason of the patentee claiming more or less than he had a right to claim in the patent, specifically by failing to include claims directed to positioning an optical element, or an element for imaging, out of an optical axis, which is described, *inter alia*, at column 3, lines 31-48 of the specification in U.S. Letters Patent 6,366,323.

6. All errors being corrected in the reissue application up to the time of filing of the oath or declaration arose without any deceptive intention on the part of the applicant.

7. I acknowledge the continuing duty to disclose to the U.S. Patent and Trademark Office all information known to the person to be material to patentability, as defined in 37 C.F.R. §1.56.

8. I acknowledge, pursuant to 37 C.F.R. §1.178(b), the continuing duty to call to the attention of the Office any prior or concurrent proceedings in which the patent (for which reissue is requested) is or was involved, such as interferences, reissues, reexaminations, or litigations and the results of such proceedings.

9. I hereby claim foreign priority benefits under Title 35, United States Code §119 of Japanese Patent Application No. 9-155144 filed on June 12, 1997.
